

InSite Partners with Duke Energy to Certify South Carolina Buildings in Building Assessment Program

Greenville, SC -- ~~December 18~~January 21, 200910 -- InSite Consulting recently completed a Certified Client-Ready Building Assessment Program, sponsored by Duke Energy, for Anderson County, South Carolina. ~~Our~~The ultimate goal for this service was to make recommendations that enhance the future marketability of not only the existing buildings, but also the communities promoting them. The program addresses the need for viable buildings that play an increasingly important role in a community's marketing toolbox.

Randy Broome, partner with Duke Energy, says that InSite's "flexibility in wanting to truly add value for these organizations is much appreciated. This program is being extremely well-received in the counties where we are currently evaluating buildings. InSite is a great partner and is really going all-out for this program."

Burriss Nelson, Interim Director, Anderson County Economic Development, had this to say about InSite Consulting: "I was very pleased with the high level of professionalism and breadth of experience displayed by Tonya Crist and Rob Cornwell. Their ability to define all of the critical information necessary for us to make an informed decision made our job easier."

For further information regarding our "Client-Ready" Building Assessment Program or any of our other economic development services, the InSite team can be reached at 864.334.1886 ext. 3 or at insite@insiteconsultinggroup.com.

With over four decades of economic development and site selection consulting experience, InSite serves organizations of all sizes locating facilities around the world along with the communities, regions, and states hoping to land such projects. Our team has performed site selection services for some of the world's most prestigious companies including Shell Oil, Caterpillar, and Mercedes-Benz. One of the fastest-growing economic development and site selection consultancies in America, the organization serves a variety of clients ranging from global industry leaders to local, regional, and state governments.
