

## **InSite Completes Site Assessment for Southern Carolina Regional Development Alliance - April 2009**

InSite recently completed a site assessment and feasibility study for the Southern Carolina Regional Development Alliance. This effort focused on the evaluation of a proposed, promotional shell building site at the CrossRhodes Regional Industrial Park in Bamberg County, South Carolina. InSite offered recommendations to further enhance the marketability of the overall Industrial Park, along with the proposed tract for the promotional shell building.
